

Project: New Haven Urgent Care

Team# 13

Test Case ID#: 3

Test Date:

Name(s) of Tester(s):

Zixuan Zhang (zhan7230)

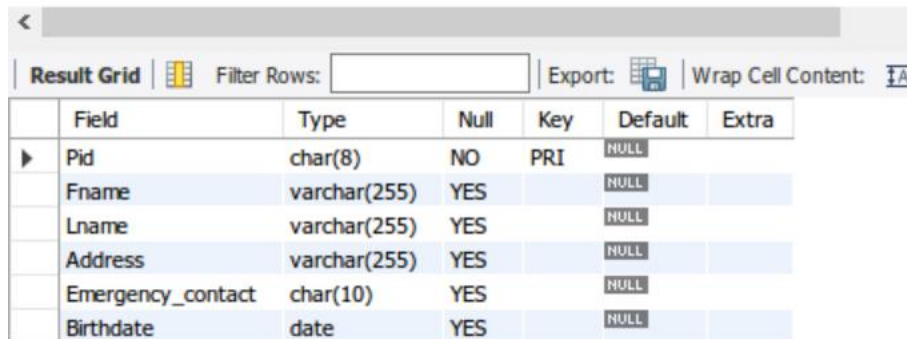

Test Description (What are you testing? – you must be specific): I'm testing if the system document when a patient does not have insurance.

NOTE: The following information must be provided to be given credit for any test.

Test Data (Provide the file name of the script used to insert data, provide a screen capture to reflect data, or provide script here):

SQL filename: insurance_info_in_system_3.sql

```
1 • DESC PATIENT;
```

Field	Type	Null	Key	Default	Extra
Pid	char(8)	NO	PRI	NULL	
Fname	varchar(255)	YES		NULL	
Lname	varchar(255)	YES		NULL	
Address	varchar(255)	YES		NULL	
Emergency_contact	char(10)	YES		NULL	
Birthdate	date	YES		NULL	

SQL Query(s) used for testing:

DESC PATIENT;

As specified in the project documentation, the system should not keep track of patients' insurance status. So, the PATIENT table has no column related to insurance information and system does not document whether a patient has insurance.
